

TIMBERSTRAND® LSL 45-MINUTE FIRE DOOR SYSTEM

The TimberStrand® LSL 45-minute door system combines the exceptional qualities of TimberStrand® LSL with a proprietary assembly that is approved by Intertek Testing Services for use in 45-minute fire applications.

■ WORKING WITH WOOD IS PREFERABLE TO WORKING WITH MINERAL CORE

- No breaking during transit and handling
- No inner blocking required
- No abrasive mineral dust to clog equipment and hinder bonding
- Faster press times

■ ONE-STOP SHOPPING

Weyerhaeuser provides rails, cores, and stiles with delivery in days, not weeks. And shipping can be combined on the same truck as other TimberStrand® LSL products.

■ WARNOCK-HERSEY STAMP

The TimberStrand® LSL 45-minute fire door system has been tested and approved by Intertek, an accredited testing laboratory, in accordance with the requirements and standards for 45-minute-rated fire doors.

This system is positive pressure rated for both category A and B doors.
