

TECHNICAL BULLETIN

OSB-4204 December 2018 (Expires 12/2020)

How to Read a Weyerhaeuser OSB Grade Stamp

- 1. Company Logo.
- Recognized certification agency logo.
- Panel grade. Rated Sturd-I-Floor panels are intended for single-layer floor applications.
 Rated Sheathing panels are intended for roof, subfloor, and wall applications.
- Span rating indicates the maximum singlelayer floor support spacing for floor panels or the maximum roof/subfloor support spacing for sheathing panels.
- Sized for Spacing indicates the panel has been sized to allow for %" expansion gap between panels.
- 6. PS 2 bond classification. Exposure 1 panels are suitable for uses not permanently exposed to weather. Panels classified as Exposure 1 are intended to resist the effects of moisture on structural performance due to construction delays or other conditions of similar severity.
- Panel thickness.
- 8. Mill number.
- The most recent version of U.S. Dept. or Commerce Voluntary Product Standard PS 2.
- 10. HUD/FHA recognition.
- 11. PS 2 performance category.
- 12. Grade stamp information for Canadian markets.
- 13. Wood fiber sourcing certification.
- 14. Strength axis indicates the orientation direction of the face layers.
- 15. Weyerhaeuser website for more information.
- Indicates which face of the panel should be placed down on the surface of the supports.
