### Classic Composite Series

#### Universal Rail and Drink Rail Option

- Classic Composite Series, a simple system with an endless design options, combines four railing collections into one with Universal Rails and four top rail options: Premier Railing<sup>®</sup>, RadianceRail<sup>®</sup>, Trademark Rail<sup>™</sup> and the new Drink Rail
- Kits and packs include Universal Rails with hardware; individual top rails sold separately
- Allows for fewer SKUs and no change in price
- Drink Rail uses a deck board as the top rail for added function with traditional style
- Drink Rail can go over the post or in between the posts
- Requires an additional Universal Rail with hardware
- Works with full profile deck boards, excluding Terrain, Prime, and Prime+ Collections

### RadianceRail Express<sup>®</sup> Smart Set<sup>™</sup>

#### Bundles Everything but the Posts

- New rail set components bundle
- Includes top and bottom rail, 4x4 post sleeve, 4" post cap and skirt, hardware, footblocks, and balusters
- Available in 6' and 8' panels

### TOPLoc<sup>™</sup> Fastener

#### Light Gray Fastening Option

- High-quality, coated carbon steel screws
- Color-matched for TimberTech PRO<sup>™</sup> Stone Ash<sup>®</sup> and TimberTech EDGE<sup>™</sup> Beachwood Gray<sup>™</sup>

### SIDELoc<sup>™</sup> for Multi-Width Decking

#### Narrow Width Guide and Wide Width Extension

- Smaller, narrow width (3.5") guide
- Extension attachment for the standard width (5.5") guide for wide width (7.25") boards
