

SPRUCE-PINE-FIR (SPF) LUMBER

BRIGHT, WHITE APPEARANCE CONSISTENT, TIGHT-GRAIN LUMBER

WEYERHAEUSER SPF LUMBER

Canadian SPF lumber is recognized throughout North America for its dimensional stability and strength. The region's harsh winters and short summers produce a consistent, tight-grain lumber that is unique in the industry.

We use proprietary grade rules that provide you with SPF lumber products that stand out from competitive offerings, no matter which grade you choose:

- **Machine Stress Rated (MSR):** Ideal for component manufacturing, each piece of Weyerhaeuser's MSR lumber is evaluated to confirm its structural properties. Recognized for its consistent quality, restricted wane and superior straightness, our MSR is available in 2x4, 2x6 and 2x8.
- **Prime grade:** With proprietary wane rules, Weyerhaeuser's Prime SPF lumber has a #2 knot size and reduced warp. Perfect for high-quality dealer or DIY markets.
- **#2&BTR:** Weyerhaeuser's #2&Btr is a consistent and attractive construction-grade product with a bright, white appearance.

RELIABLE RESOURCE

Weyerhaeuser's SPF lumber facilities are located in regions that have experienced minimal Mountain Pine Beetle damage, which means bright, white lumber with a low percent of blue stain and almost none of the splitting and cracking characteristic of some SPF producing regions.

Consistent and Dependable

- Our state-of-the-art computerized grading systems are calibrated to produce a consistent product appearance: day-to-day, month-to-month, mill-to-mill.
- Our inventory management ensures customers receive clean, bright lumber.
- Our shipping performance sets the industry standard by getting customers what they ordered—complete and on time.

There when you need us

At Weyerhaeuser, our sales associates offer exceptional service with a focus on getting you the product you need, when you need it.

Weyerhaeuser SPF is available in sizes 2x4, 2x6, 2x8 and 2x10.

RENEWABLE AND SUSTAINABLE

- Weyerhaeuser has a reliable source of timber supply. Trees come from a secure, long-term, quality fiber basket that is sustainably managed.
- Weyerhaeuser's mills are certified to Sustainable Forestry Initiative (SFI®) and Programme for the Endorsement of Forest Certification (PEFC®) standards, and each piece of our lumber has a SFI Certified Sourcing label.
- Through our manufacturing processes, we maximize the use of each log by creating lumber, raw materials for consumer goods, and green energy.

This product is Green Approved by the NAHB Research Center for meeting certain criteria in the National Green Building Standard®.
