

Bank: EDISTO RIVER (PROPOSED) - *Freshwater Enhancement/Restoration and Stream*

The proposed Edisto River Mitigation Site is another mitigation site to be added to the Palmetto Umbrella Mitigation Bank. It is located in Dorchester County and comprises approximately 1,385 acres. Mitigation efforts on the site will result in the restoration, enhancement and/or preservation of approximately 1,365 acres of freshwater wetlands and over 19,000 linear feet of streams.
