TOUGH PRODUCTS FOR TOUGH CONDITIONS

WEYERHAEUSER STURDISTEP® STAIR TREADS

STEP UP YOUR GAME

WITH PRECISION, CONVENIENCE, LESS WASTE AND LOWER COSTS.

WEYERHAEUSER STURDISTEP® STAIR TREADS

SturdiStep stair treads are engineered to get the most from natural wood. Each piece is precisely engineered for this end use and is uniform in size, which helps reduce jobsite waste.

Uniformity from piece to piece—and within each piece—means the customer can buy with confidence. SturdiStep stair treads resist cupping and warping and are warranted against delamination.

Our resins can withstand the demands of normal construction delays so SturdiStep treads can be installed during the framing stage of construction, saving on labor and other costs associated with temporary stair treads.

Other benefits include:

- Available in sizes convenient for cutting to length at the jobsite

Western markets:

1" x 11½" x 12'

Eastern markets:

1" x 11½" x 16'

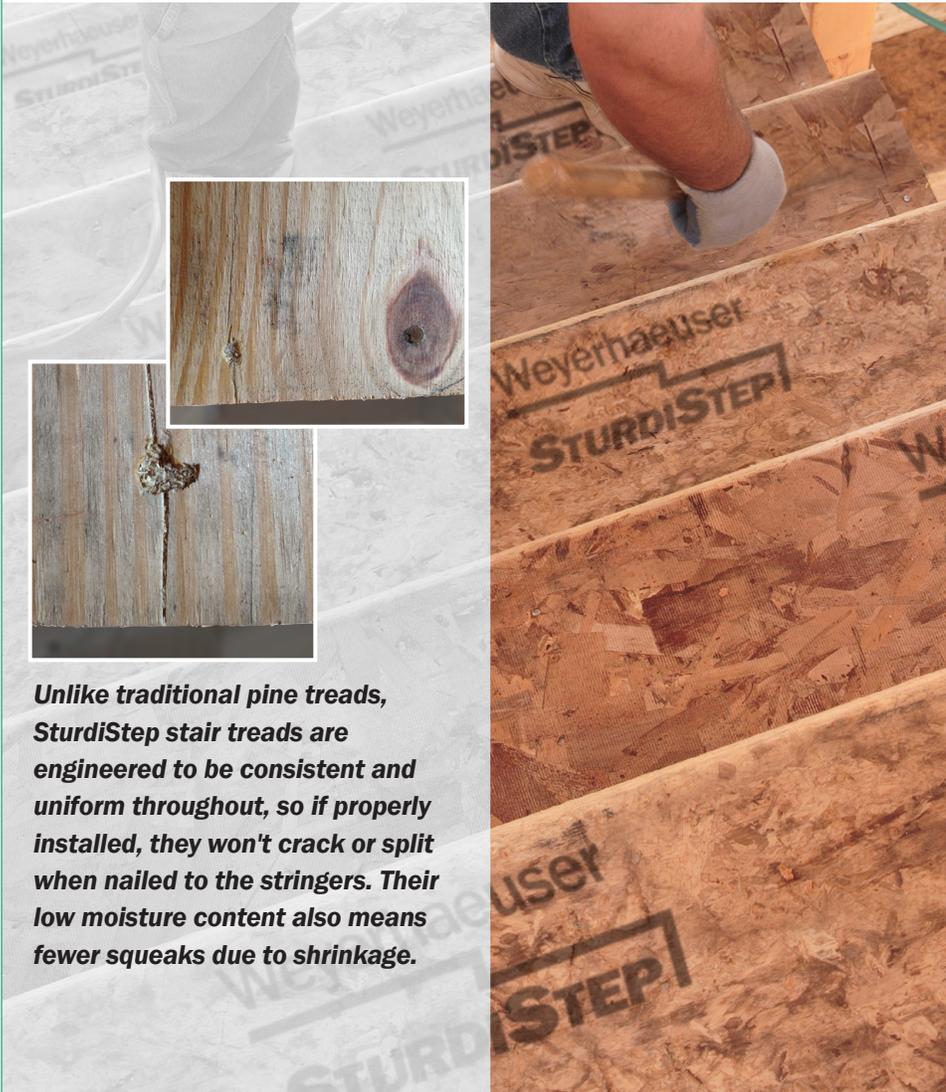

1" x 10¼" x 16'

- Bullnosed edges enhance appearance and save jobsite labor
- Designed for use in residential and multifamily construction
- Covered by a limited 25-year warranty

WEYERHAEUSER STURDISTEP® STAIR TREADS

SturdiStep stair treads are manufactured to be flat, straight, and a precise thickness. Knot-free and uniform throughout, they resist cupping and warping and are warranted against delamination. Combine SturdiStep treads with Trus Joist® TimberStrand® LSL stair stringers for a solid, stable stair system – and fewer customer callbacks. They're also durable enough to withstand normal construction delays so builders save on the labor and material costs associated with temporary stair treads.

Unlike traditional pine treads, SturdiStep stair treads are engineered to be consistent and uniform throughout, so if properly installed, they won't crack or split when nailed to the stringers. Their low moisture content also means fewer squeaks due to shrinkage.

WEYERHAEUSER STURDISTEP STAIR TREADS

- Uniform from piece to piece
- Convenient sizes
- Bullnosed edge reduces labor
- Eliminates the need for temporary stair treads
- Covered by a limited 25-year warranty
- APA-certified

LIMITED WARRANTY
Weyerhaeuser SturdiStep® Stair Tread

Weyerhaeuser STURDISTEP™

Limited Warranty
Weyerhaeuser SturdiStep® Stair Tread (SturdiStep) is warranted by Weyerhaeuser OSB Company (Weyerhaeuser) against delamination for a period of 25 years from the date of purchase by the end user, when properly installed as stair treads.

Exclusions of Covered Conditions
"Delamination" is defined as an excessive separation of strands within SturdiStep. Minor bullnosed edge chipping or loose strands or the presence of a protrusion does not constitute delamination.

Remedy
For any SturdiStep that Weyerhaeuser determines to be in non-conformity with the above conditions, Weyerhaeuser will, at its sole discretion, either repair or replace the SturdiStep or provide a replacement SturdiStep tread of the same size and quantity as the original SturdiStep tread.

Limitations
This warranty does not cover the following:
• Any damage caused by fire, lightning, flood, insect, mold, rot, or other environmental conditions.
• Any damage caused by improper installation, use, or maintenance.
• Any damage caused by any other product or material used in conjunction with the SturdiStep.
• Any damage caused by any other product or material used in conjunction with the SturdiStep.

Conditions of Warranty
This warranty is only applicable to United States and Canadian customers and is void where prohibited by law. Weyerhaeuser is not responsible for any damage caused by fire, lightning, flood, insect, mold, rot, or other environmental conditions. Weyerhaeuser is not responsible for any damage caused by any other product or material used in conjunction with the SturdiStep.

Exclusion of Applied Warranties
This limited warranty does not cover damage due to:
• The finish, or material or human-caused damage, or other wear.
• Improper installation or use.
• Misuse, improper product application, or improper handling, storage or transportation of the product or the finished structure.
• Damage caused by water before, during or after completion of construction.
• Installation with all applicable installation instructions for SturdiStep and the final floor system, with applicable building codes, or with generally accepted construction practices.

Small Print
This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state and province to province.
