

WEYERHAEUSER PROVIDES THIS GRI INDEX AS A GUIDE TO ITS ANNUAL SUSTAINABILITY REPORTING

Weyerhaeuser has prepared its sustainability disclosures for the reporting year 2024 with reference to the Global Reporting Initiative Sustainability Reporting Standards (GRI Standards). Our website is our primary sustainability reporting platform, and is used to communicate our sustainability strategy, progress and performance. We prepare our annual update of sustainability information on our website annually in reference to the GRI Standards along with other internationally recognized sustainability reporting standards and practices.

Our index is prepared with reference to Foundation 2021 (GRI 1), General Disclosures 2021 (GRI 2) and Material Topics 2021 (GRI 3). It further includes reference to all Topic-specific Standards that are determined to be material to Weyerhaeuser under the criteria of the company's materiality assessment conducted in accordance with GRI 3. For topics which are determined to be material to our company but are not found to align with any GRI disclosure indicators, Weyerhaeuser employs company-selected indicators to measure impact, communicate performance and track progress towards goals. Where those company-selected indicators are publicly disclosed, they are included in this table below the GRI-selected metrics.

GRI 2: General Disclosures		
The Organization and its Reporting Practices		
2-1	Organizational details	Weyerhaeuser Company is a publicly held corporation headquartered in Seattle, Washington. Weyerhaeuser 2024 Annual Report and Form 10-K , p. 7, 9.
2-2	Entities included in the organization's sustainability reporting	2024 Annual Report , p. 71.
2-3	Reporting period, frequency and contact point	We report on an annual basis, with the current report covering January 1, 2024 to December 31, 2024. May 1, 2025 Sustainability Feedback
2-4	Restatements of information	Restatement of one component of metrics provided for GRI 415-1, Political Contributions for fiscal years 2022 and 2023 due to implementation of a revised definition of underlying categories.
2-5	External assurance	Printable Resources: Carbon Record Methodology , p. 3 2024 Independent Limited Assurance Report to Weyerhaeuser Company and its Stakeholders
Activities and Workers		
2-6	Activities, value chain and other business relationships	2024 Annual Report , p. 9-27, 50-51, 65. Stakeholder Engagement Environmental Stewardship: Responsible Wood Procurement
2-7	Employees	ESG Data Table
Governance		
2-9	Governance structure and composition	Weyerhaeuser Notice of the 2025 Annual Meeting & Proxy Statement , 12-19. Governance Guidelines Committee Charters and Composition Maintaining Board Oversight of Sustainability
2-10	Nomination and selection of the highest governance body	Amended and Restated Bylaws of Weyerhaeuser Company , p. 9-11 Governance and Corporate Responsibility Committee Charter 2025 Proxy Statement , p. 15, 64-66.
2-11	Chair of the highest governance body	2025 Proxy Statement , p. 6, 12.
2-12	Role of the highest governance body in overseeing the management of impacts	2025 Proxy Statement , p. 14. Strong Governance: Determining What Is Significant

GRI 2: General Disclosures, continued

Governance, continued

2-13	Delegation of responsibility for managing impacts	Our Strategy Governance and Corporate Responsibility Committee Charter Bylaws , p. 12-14. 2024 Annual Report , p. 10-17, 28.
2-14	Role of the highest governance body in sustainability reporting	2025 Proxy Statement , p. 6, 11.
2-15	Conflicts of interest	Bylaws , p. 10-11. Governance Guidelines Code of Ethics , p.4, 18-24, 26-27. Related Party Transactions Policy & Procedures
2-16	Communication of critical concerns	Integrity 2025 Proxy Statement , p. 19, 65.
2-17	Collective knowledge of the highest governance body	2025 Proxy Statement , p. 6, 16-17, 20-24. Governance Guidelines Governance and Corporate Responsibility Committee Charter
2-18	Evaluation of the performance of the highest governance body	2025 Proxy Statement , 16-18. Governance Guidelines
2-19	Remuneration policies	2025 Proxy Statement , p. 28-35.
2-20	Process to determine remuneration	2025 Proxy Statement , p. 35-58.
2-21	Annual total compensation ratio	2025 Proxy Statement , p. 54.

Strategy, Policies and Practices

2-22	Statement on sustainable development strategy	Sustainability: A Message from Our CEO
2-23	Policy commitments	Printable Resources: Being Transparent Sustainable Forestry Policy Environmental Policy Human Rights Policy Code of Ethics Supplier Code of Ethics Health and Safety Policy Anti-Discrimination, Anti-Harassment and Equal Employment Opportunity Policy A Policy and Framework for Building Relationships: Canada's Aboriginal Peoples and Weyerhaeuser
2-24	Embedding policy commitments	Our Strategy Vision and Values Inclusion Integrity Strong Governance
2-25	Processes to remediate negative impacts	Integrity Code of Ethics , p. 5-8.

GRI 2: General Disclosures, continued		
Strategy, Policies and Practices, continued		
2-26	Mechanisms for seeking advice and raising concerns	Integrity How We Do It: Forest Management & Wood Products Certification Supplier Code of Ethics , p. 4. Code of Ethics , p. 8. 2025 Proxy Statement , p. 19, 65.
2-27	Compliance with laws and regulations	ESG Data Table 2024 Annual Report , 87-89, 94.
2-28	Membership associations	Stakeholder Engagement
Stakeholder Engagement		
2-29	Approach to stakeholder engagement	Determining What Is Significant Stakeholder Engagement How We Do It: Forest Management & Wood Procurement Certification
2-30	Collective bargaining agreements	ESG Data Table

GRI 3: Material Topics		
3-1	Process to determine material topics	Ensuring Disciplined Risk Management Determining What Is Significant
3-2	List of material topics	<div> <div> ENVIRONMENTAL Very high Climate change & natural climate solutions Sustainable forestry High Air quality Biodiversity Conservation Environmental management Land use Water quality Wildfires Moderate Energy efficiency Water availability </div> <div> SOCIAL Very high Safety & health High Citizenship & communities Inclusion Labor People development Moderate Human rights </div> <div> GOVERNANCE Very high Integrity, ethics & governance High Byproducts & waste Certification Product stewardship Public policy Supply chains Moderate Green building Marketing & labeling </div> </div>
		Note: Material topics are grouped by thematic category (Environmental, Social, and Governance) and level of potential impact to our business and importance to our stakeholders (Very high, High, and Moderate). Within each of those groupings, topics are listed alphabetically.

Biodiversity Environmental Management

GRI 3: Material Topics

GRI 3-3	Management of Material Topics	Biodiversity Wood Procurement Policy
---------	-------------------------------	---

GRI 101: Biodiversity 2024

101-1	Policies to halt and reverse biodiversity loss	Threatened and Endangered Species Policy Environmental Policy Sustainable Forestry Policy
101-2	Management of biodiversity impacts	How We Do It: Wildlife Habitat How We Do It: Riparian Buffers How We Do It: Forest Management & Wood Procurement Certification
101-5	Locations with biodiversity impacts	Environmental Stewardship: <ul style="list-style-type: none"> • Forests in the Western U.S. • Forests in the Southern U.S. • Forests in the Northeastern U.S. • Forests in Canada 2024 Annual Report , p. 11-12.
101-6	Direct drivers of biodiversity loss	We replant 100% of our timberlands after harvest. How We Do It: Clearcutting
101-7	Changes to the state of biodiversity	ESG Data Table

GRI 304: Biodiversity 2016

304-1	Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas	Environmental Stewardship: <ul style="list-style-type: none"> • Forests in the Western U.S. • Forests in the Southern U.S. • Forests in the Northeastern U.S. • Forests in Canada 2024 Annual Report , p. 11-12.
304-2	Significant impacts of activities, products and services on biodiversity	How We Do It: Wildlife Habitat How We Do It: Riparian Buffers
304-3	Habitats protected or restored	Biodiversity ESG Data Table
304-4	IUCN Red List species and national conservation list species with habitats in areas affected by operations	2024 Annual Report , p. 11-12.

APPENDIX: Occupational Health & Safety at Weyerhaeuser

The most fundamental characteristic of our culture at Weyerhaeuser is our deep commitment to the safety of our people. For us, safety is a core value and comes first in everything we do. In accordance with our commitment to sharing our material sustainability data through the GRI (Global Reporting Initiative) framework, we are pleased to provide this supplemental appendix of occupational health and safety-related policies, practices and performance for the 2023 reporting period in addition to disclosure on our website and data table. Cross-references to relevant GRI indicators are placed at the beginning of each statement below. Additional Weyerhaeuser safety policies and statements can be found at the following links:

[Health & Safety Policy](#)

[Code of Ethics](#)

[Supplier Code of Ethics](#)

GRI 403: Occupational Health and Safety

(GRI 403-1 a. ii., 403-1 b., 403-8 a.) Safety is one of our company's core values. All our employees, activities and workplaces must comply with our Health and Safety Policy and our safety-related standards and procedures. Our approach to implementing worker safety is based on our company occupational health and safety management system, which focuses on managing risk and complying with regulations. Weyerhaeuser has developed an extensive set of Safety Standards that apply to the full range of Weyerhaeuser operations and occupations, with the goal of establishing and maintaining a consistently healthy and safe work environment for all employees.

(GRI 403-1 b., 403-8 a.) The safety of our contractors and other suppliers is important to us and reflected in our [Supplier Code of Ethics](#). All our contractors are expected to have and maintain acceptable safety records, demonstrate safe practices, promptly report all safety incidents, and cooperate with incident investigations. All contractor personnel must learn site safety rules and guidelines, use adequate PPE and safety equipment, and receive health and safety training before entering any Weyerhaeuser site. Contractors must comply with regulations and contractual safety requirements. Failure to comply can be cause for contract termination. Contractors are assessed against safety criteria prior to hiring, and Weyerhaeuser leaders and managers regularly monitor performance against contract requirements.

(GRI 403-2 a.) To identify work-related hazards and assess routine and non-routine risks, we use hazard identification and risk-assessment tools based on recognized standards suitable for each type of operational environment. The goal of our hazard identification and risk-assessment process is to prevent the occurrence of any incidents. As a part of this process, every work site has an annual risk-based safety plan in which hazard-prevention activities are aligned to higher-level risks. We maintain a companywide incident database to report, monitor and analyze safety-related performance. We also conduct regular internal safety audits of our sites to ensure compliance with company and regulatory standards, share companywide best practices and identify improvement opportunities. Workers are expected to report all observed work-related hazards and hazardous situations immediately.

(GRI 403-2 d.) Weyerhaeuser's Incident Investigation Process governs our objective investigation and proper response to any employee-related or contractor-related incident. This seven-step process provides response teams with a set of robust procedures for first response and secondary actions, prioritizing employee safety while also providing controls for gathering and evaluating all information related to the incident. Our objectives in the incident investigation process are to ensure worker safety, prevent re-occurrence and meet all compliance expectations. Site leadership is responsible for developing a corrective action plan to prevent any incident from re-occurring. All employees conducting safety-related incident investigations are required to receive specific training to ensure objective evaluations and outcomes. Our internal outputs of any serious incident include a comprehensive, businesswide review and key learnings/takeaways.

(GRI 403-3, 403-10 c.iii) We provide comprehensive programs for chemical and noise exposure based on regular industrial hygiene surveys. Program elements include exposure assessments, training, health assessments and controls, including hazard elimination, substitution, engineering, administrative, communication/training and PPE. Through our [Fighting Fires Together campaign](#), we partner with Firefighter Behavioral Health Alliance to provide specialized support and mental health resources for wildland firefighters.

(GRI 403-4) Each of our operations sites maintain an active occupational health and safety committee that consists of a cross-section of employees representing different departments, functions and shifts, chaired by an individual without other site leadership duties. Its monthly meetings are conducted according to written guidelines outlining objectives, authority and responsibilities. External auditors regularly confirm the continued integrity of these committees. These worker safety committees support each work site's risk-based safety plan, support regulatory compliance, participate in regular safety audits and incident investigations and convey teams' action items or concerns to leadership for resolution.

(GRI 403-5) All employees receive baseline safety training at hire and refresh job-specific training modules at regular intervals. Team leaders, managers and company safety experts develop targeted safety training programs and identify mandatory safety training curricula on a team and individual basis based on risk exposures and job duties. Our learning management system delivers nearly 100 different safety training modules to employees in different job categories and managerial levels. Along with virtual training, we emphasize in-person safety training sessions during onboarding and task/job-based training, along with specialized off-site safety training as needed.

(GRI 403-6 a, 403-6 b) Part of our strong safety culture is understanding the importance of preventative action. We encourage all our employees to apply the same preventative vigilance that we do for safety to our personal health. Employee medical/vision benefit plans provide access to a range of preventative care exams and screenings. Our additional offerings include mental health and addiction treatment, diabetes management and prevention, tobacco cessation, telemedicine and an Employee Assistance Program.
